I was working from home and didn't see your e-mail 'till just now. Sorry 'bout that. Dean Ingemansen was the only other EPA person - I'll be more than happy to follow-up with you Monday. I expect the AK CID folks will have a follow-up call with me. Perhaps we can do the call together.

Dave

Dave - I am afraid that I misplaced the call-in # and code#, can you shoot those over to me again?
Thanks, Richard

All: I briefly spoke to Agent Powers a few minutes ago, and we discussed the possibility of having a phone discussion tomorrow at 10:00 am Alaska/11:00 Pacific time. I have a reservationless conference line reserved. Can everyone provide feedback if this time works, or some alternate time? I'll then send out a schedule invitation with the call-in number.

Thanks!

Gentlemen,

Please find the attached document that we requested from the USAF on the Port Heiden clean up of PCB's at the radar station. Upon receipt and review of these documents, would it be possible to discuss this today? If so, please provide a call in number. Thanking you in advance.

Regards

Frank Powers
